General Comment

I'm smart enough to plan my own retirement, save my money and not depend on my country for provide for me, like most of the population in the USA.

I'm sick and tired of all the people who only want to take more and not give, the unions suck, the people on welfare that do not deserve it suck, giving illegals benefits suck, I can go on and on. Lets use President Kennedy's statement "Ask not what your contry can do for you, but ask what you can do for your country" be the new cry for change and hope.

If the USA is going to be great it takes all of the people working, not sitting watching TV and having more babies to get more money from the government.
